Sample Requirements

RiskReveal™

Patient Criteria

A. Non-squamous NSCLC with a tumor size <5cm, no positive lymph nodes (i.e., AJCC 8th Edition = Stages IA, IB, and IIA)

B. Sufficiently healthy to tolerate chemotherapy

C. Being considered for adjuvant platinum-containing chemotherapy

Sample Criteria

1. **A surgical specimen - NOT a biopsy** of any type (not EBUS, FNA, etc.)
2. Preserved as an FFPE
3. **Tumor area grater than 25% of the block's total tissue area,** without regard to cell density

Sample Labeling

1. Label the sample with two patient-specific identifiers (e.g., Institutional FFPE block #, patient medical record #, etc.).

RiskReveal™

Highlighted sections must be filled in.

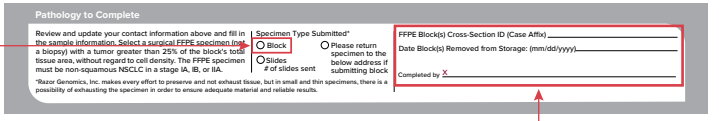
Test Selected
○ RiskReveal™

RiskReveal Intended Use: Improving the quality of post-surgical treatment decisions by identifying patients at highest risk of 5-year mortality, and therefore the most likely to benefit from adjuvant chemotherapy, in stage IA, IB and IIA (8th edition) non-squamous non-small cell lung cancer patients whose tumors have been fully resected and are candidates for chemotherapy.

Completing TRF Information

2. Mark the sample type submitted.

3. Enter the cross-section ID and/or the full block ID being sent for the patient (i.e., A1, A2, A3, etc.), date in both spots, and sign.



Pathology to Complete

Review and update your contact information above and fill in the sample information. Select a surgical FFPE specimen (not a biopsy) with a tumor greater than 25% of the block's total tissue area, without regard to cell density. The FFPE specimen must be non-squamous NSCLC in a stage IA, IB, or IIA.

*Razor Genomics, Inc. makes every effort to preserve and not exhaust tissue, but in small and thin specimens, there is a possibility of exhausting the specimen in order to ensure adequate material and reliable results.

Specimen Type Submitted*
○ Block
○ Slides # of slides sent

○ Please return specimen to the below address if submitting block

FFPE Block(s) Cross-Section ID (Case Affix) _____

Date Block(s) Removed from Storage: (mm/dd/yyyy)_____

Completed by X_____

Pack for Shipping

4. Place sample, TRF, pathology report, and patient face sheet into shipping kit. Use the prepaid FedEx labels.

Place frozen ice pack on top of grey foam right before shipping
